

SAY TO YOUR MOUNTAIN

2019 Fort Collins General Election Candidate Survey

NAME: Mayor Wade Troxell

EXPERIENCE: What is your number one life accomplishment that will influence you in making city council policy decisions?

The one accomplishment was when Mayor Troxell served as “Mayor for the Day” when appointed by then Fort Collins Mayor Karl Carson. Mayor Troxell was 14 years old at the time. He is running for his third term and is currently Mayor of Fort Collins. Mayor Troxell was first elected in April 2015 is now serving his second term. He has been on Fort Collins City Council since 2007 serving two terms as District 4 City Councilmember.

MAIN POLICY GOAL: As a council member, what is the single most important thing that you would like to accomplish during the next council term?

It has been an honor and privilege to serve as Fort Collins mayor for the past four years. Since this is my hometown, I have a strong passion for Fort Collins and its future. I bring common sense leadership that is both pragmatic and aspirational to City Council. The most important thing for me to accomplish is to serve the citizens of Fort Collins.

CLIMATE CHANGE: The City Council should base its decisions about water, traffic, land use, and construction practice on the scientific facts/belief that global warming/climate change is a real and imminent threat to Fort Collins. Please check one.

I strongly disagree 1 2 3 4 5 6 7 I strongly agree

UTILITY RATES: Do you agree that Fort Collins Electric Utility (Time of Use) rates should continue to be tripled (from a one-half the former rate) during peak hours as they are currently? **Another way to ask this question is: Do you agree that Fort Collins Electric Utility rates should be reduced by one half the former rate for 19 hours of every single day and remain revenue neutral from the former rate?**

Yes No
